

CSS HOMEWORK 05

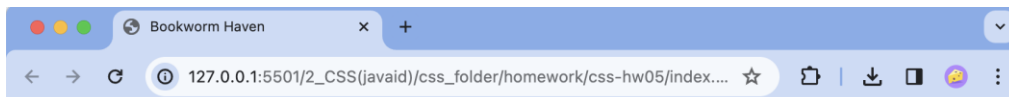

BOOKWORM HAVEN BOOK STORE:

Prompt:

Imagine you've been hired by a whimsical online bookstore called "Bookworm Haven" to revamp their website's text styling. Your task is to enhance the readability and aesthetic appeal of their existing HTML content using CSS. Your client is looking for improvements in line-height, spacing between letters, text transformation, text decoration, and text alignment. Get ready to unleash your creativity and make the text on their website truly pop!

Requirements:

1. **Line-Height:** Adjust the line-height to ensure comfortable spacing between lines of text, making the content easier to read.
2. **Spacing Letters:** Implement custom letter spacing to add a touch of elegance and improve readability without sacrificing legibility.
3. **Text Transform:** Apply text transformations to make certain elements stand out. Experiment with uppercase, lowercase, and capitalize to find the most suitable style.
4. **Text Decoration:** Enhance the visual appeal of specific text elements by adding decorations such as underlines, overlines, or line-through effects.
5. **Text Alignment:** Align text appropriately to improve the overall structure and flow of the content. Experiment with left, center, right, and justify alignments to find the optimal presentation for different sections of the website.
6. Your result should look somewhat similar to this (feel free to change the colors or border styles):
